REWARD

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one inch square or smaller will be accepted unless made of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopah as second-class matter.

OCCUPATION AND INTERVENTION

THE crux of the situation in Mexico is that the United States does not want to annex any part of the southern republic. Neither does it care to invade the land across the Rio Grande. To the dilemma would mean the sacrifice of thousands of lives and the outlay of at least \$150,000,000, according to the conservative army officers, who know of what this is a peaceful country and the policy of advanced by President Wilson does not make career. To straddle the issue it is proposed to y of occupation that would satisfy Europe of United States to do something more—use moral demands and a respect for citizens of this country of monarchies. The circumstances of the execution add to the prestige of Villa or Carranza as the future administration of affairs in Mexico. aded, arrogant, conceited tyrant whose knowledge of liberty are about on a par with those of any of the other money grabbing potentates who lives the right of guiding republics without the of the rights conferred by citizenship. ase it begins to appear that the United States toward meeting the crucial test by essaying to ed zone. Troops will be thrown into the border ey of England, demonstrated with the Mahdi of emulated. However it will be another matter and the citizens of South American republics een peaceful occupation and actual belligerency. ab will come. If Uncle Sam could only convince at he has no ulterior motive than the solution so long as demagogues exist there will be mis-distorting of conditions that will force actual ties trimming frequently pays, but in the game iron hand and nerve of steel to point the way. upies" Egypt twenty years after pacification.

ats of the northern part of the state would like to know as to the identity of that mule which was lowered to the 1200-foot darkness of the Belmont mine a few days ago. Was it the mule that was given to the southern section some years ago by Bryan and who was elevated to the position of hauling a beer wagon while the donor only uses grape juice?—Carson News. No, this is not the Bryan mule which was hitched to a beer cart. That representative of stalwart Democracy has found his level hauling a garbage wagon.

The Democratic party in Nevada is all shot to pieces with three factions headed by Dickerson, Newlands and Gilbert Ross, struggling for the mastery. The primaries will be a three-cornered cut-throat game with all the bitterness of factional strife carried into the elections. The white-winged dove of peace would find difficulty in finding a place to alight around Carson City or Reno.

Colorado will mourn the loss of Senator Henry M. Teller, the veteran of the political storm center of the Centennial state, but the best friends of the dead statesman say he always regretted his severance of a life time with the Republican party which he forsook only to be sidetracked by the mongrel Democracy of Colorado that failed to appreciate Teller's sacrifice for the cause of silver.

Secretary Daniels has a new method of mitigating the hardships of war by sending the wives and families of officers at Vera Cruz to their husbands and fathers. This may account for the mollicoddle doctrine of the Wilson administration. Kitchen cabinets and petticoat government never made a nation.

Train robberies are in vogue and will probably continue so until the courts adopt some other penalty than the parole system. The old-time vigilantes had a trick of suppressing such murderous cutthroats that may be revived.

Reno takes that pair of shakes with infinite good humor as a means to an end. The town has qualified for a seismograph and the university regents have been urged to supply the aching want.

OUR EMULSION OF COD LIVER OIL

will supply what is needed to restore your vitality. This Emulsion is not a medicine, but a food which contains all of the elements of strength and health.

BUILDS UP THE BODY

Let's hope they never will have occasion to use it as Carnegie would say when he manufactures guns for the navy.

"The worst is yet to come" was the heading of a weather prediction that appeared in the Bonanza about three weeks ago after California had been visited by torrential rains. By this time the people of the coast begin to see there is something in prophecy after all, sunspots or no sunspots.

Remember the Nevada is the revised version of our motto for the new navy of which the Maine was an early exemplar. Help the ladies raise funds for a set of battleflags.

INTERESTING SIDELIGHTS

Platonic love is when a man thinks too much of a woman to risk losing her friendship by marrying her.—Richmond Times-Dispatch.

Our Japanese friends seem to be even more excited over naval scandals than over the California alien land act.—Chicago Inter-Ocean.

A West Virginia farmer picked up a shotgun and shot a corn off his toe. He's lucky not to have had a wart on his neck.—Detroit Free Press.

General Coxe wants banks everywhere to lend money to the people. Why lend? Why not give it outright and be done with it?—Pittsburg Dispatch.

Thirty thousand of his royal subjects have addressed poems to the young Mikado of Japan. If they all inclosed return postage he should be able to continue his correspondence with Washington over the California land bill for a good while to come.—New Orleans Times-Democrat.

If you have a room you can't afford to furnish, just hang a few pictures on the wall, put a table in it, get a few books and call it the library.—New Orleans Picayune.

Champ Clark's prediction that he will be nominated for the presidency in 1916 indicates that his talents fit him for a job in the weather bureau.—Chicago Record-Herald.

TIP TOP MILL TREATING DAILY 65 TONS ORE

INYO COUNTY PLANT HAS TWO YEARS' SUPPLY OF QUARTZ IN SIGHT

J. L. Bley, of the company now actively developing the Tiptop mining property in the Mt. Montgomery vicinity, visited Bishop this week, according to the Register. Some facts about the enterprise, obtained from him, will prove enlightening to those who hold that there is nothing doing in mining in the territory tributary to Bishop.

The new mill, pronounced by experts one of the most complete and up-to-date plants to be found, ran most of last month, putting through about a thousand tons of ore in its twenty days or so of operation. It was closed down to await the installation of some small additional advantages. These have been put in, and the mill resumed work Monday of last week. Its capacity is 60 to 65 tons daily; the regular run is placed at 60 tons. Ore is run from the mine cars direct into the mill. The average milling value figured on is \$12 per ton; though there are high grade deposits which are disregarded in fixing this average value.

One of its running day the average yield was \$44 per ton. Enough ore is already on the dump to keep the mill busy for six months, and according to the last expert examination, made in October, enough ore is blocked out to run it for two years. In other words, the management has already enough gold and silver-bearing mineral assured to fully repay the entire investment and leave a profit, in addition to the unknown prospective deposits in the great amount of undeveloped property, situated in a region of heavy mineralization.

Plenty of men want a girl to be their very own, but they don't want a wife of their very own.

WOMAN RUNS SHIP IN DANISH SERVICE

PROMOTED TO A LARGER VESSEL OPERATING IN AMERICAN TRADE

(By Associated Press.) COPENHAGEN, Feb. 21.—Promotion to a steamer in the American service has been promised to Mrs. von Bauditz, Denmark's only woman sea captain, who is now commanding a vessel running between Russia and England.

Mrs. von Bauditz, who is the wife of a physician, was for a long time interested in yachting as a sport and after passing an examination for a master's license she took up the sea as a profession. So adept did she prove herself that a local shipping company soon gave her command of one of its largest steamers. Captain von Bauditz wears a natty uniform with square cut coat and skirt of the same material. She is the first female captain in Denmark and she claims to be the only real feminine master mariner in the world.

BUYING GRADE COWS

Eight carloads of grade Durham range cattle arrived Thursday for the Churchill Creamery and were taken to the big ranch of the company where they will be fed for a month and then put out on range until fall, when they will be fed on alfalfa. The Churchill creamery also expects six carloads of cattle Sunday, among them being about 100 head of milking Holsteins and Durhams.—Churchill Eagle.

Notice of Application for Permission to appropriate the Public Waters of the State of Nevada.

Application No. 2879.
 Notice is hereby given that on the 26th day of January, 1914, in accordance with Section 59, Chapter 140, of the Statutes of 1913, one Tony Martelelli, of Duckwater, County of Nye, and State of Nevada, made application to the State Engineer of Nevada for permission to appropriate the public waters of the State of Nevada. Such appropriation is to be made from Boulder Creek, at a point on unsurveyed land in T. 8 N. R. 51 E. M. D. B. & M. S. 19 degrees 44 minutes E., 12,998.0 feet from U. S. Mineral Monument Morey by means of a dam, and 0.30 of one cubic foot per second is to be conveyed to unsurveyed land in Township 9, N. R. 51 E. M. D. B. & M. by means of a ditch, and there used for irrigation purposes. Water not to be returned to stream.
 Signed: W. M. KEARNEY, State Engineer.
 Date of first publication Feb. 7, 1914.
 Date of last publication Mar. 7, 1914.
